

Revolutionizing Audit & Compliance with eTHIC by NCS Softsolutions

Shanmugavel P
CEO of NCS Softsolutions

In an era where governance, risk, and compliance (GRC) are more crucial than ever, **NCS Softsolutions** stands as a beacon of innovation and trust. An **ISO 9001** and **ISO/IEC 27001**-certified company and HQ at Chennai, Tamilnadu, India **NCS Softsolutions** has been redefining audit automation since its inception in 2007.

“Over the past 17+ years, **NCS Softsolutions** has built a strong client base of over 60 financial institutions, including PSU Banks, Private Banks, Rural Banks, Cooperative Banks, Foreign Banks, NBFCs, and Microfinance institutions, for their product range under the brand **eTHIC**. A Made-in-India product, now successfully expanding into overseas markets.

Pioneering the Future with AI-Powered Audit Automation

At the forefront of technological advancements, **NCS Softsolutions** has seamlessly integrated Artificial Intelligence (AI) into some of its offerings, making audit automation smarter, more efficient, and highly intuitive. The **eTHIC suite** offers a

modular and scalable approach, catering to the ever-evolving needs of regulatory compliance covering:

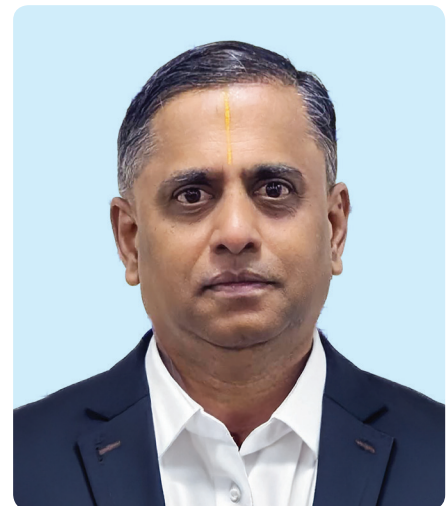

- ◆ **eTHIC**: End-to-end Audit Lifecycle Management
- ◆ **eTHIC CAAM**: Continuous Audit Automation & Monitoring
- ◆ **eTHIC TMS**: Advanced Transaction Monitoring System
- ◆ **eTHIC V-KYC**: Comprehensive audit of V-KYC (e-KYC), to name a few

With a comprehensive dashboard, powerful workflow automation, and an extensive array of configurable parameters and thereby enhancing operational efficiency, not only **eTHIC** delighted its customers but has provided the ROI in less than a year. Flexibility to choose to deploy on cloud or on-Prem is another advantage.

“Shanmugavel, CEO & Co-founder of **NCS Softsolutions**, states, ‘Over the past 17+ years, we have significantly enhanced our product capabilities, ensuring ease of deployment, superior reporting, and a future-ready audit automation experience. Our growth has been driven by valuable inputs from clients and expert advisors from our Board. With rising regulatory scrutiny, evolving statutory guidelines, and heightened board expectations, the demand for audit automation will surge significantly.’ Thus **eTHIC** is designed to meet these evolving needs. With an impeccable 100% successful implementation rate, **NCS Softsolutions** has cemented its reputation as an industry leader. Our expansion into overseas markets reflects **eTHIC**’s ability to adapt to diverse regulatory and operational requirements globally.”

Srinivasan Aravamudhan (ASN), a distinguished industry veteran with over four decades of expertise in complex transformation projects in Financial Services Industry, who now serves as an advisory board member at **NCS Softsolutions** and also an independent consultant says, “**eTHIC**’s greatest strength is its simplicity,

rapid deployment, ease of usage and ofcourse lesser dependency on **NCS** for post go-live operations. His opinion is that ‘Unlike conventional solutions that impose rigid frameworks, **eTHIC** delivers a tailored approach that integrates seamlessly with existing workflows’. He firmly believes that this product will expand its horizon by appropriately tweaking the flow and using the right nomenclature for deployment at other Industries such as Insurance, Manufacturing etc.
